

PIP

Latifa & Jasmine

How can we use rich experiences and tasks to build on students written literacy skills?

THINKING...

Rich experiences

Chalk Talk

Turtles

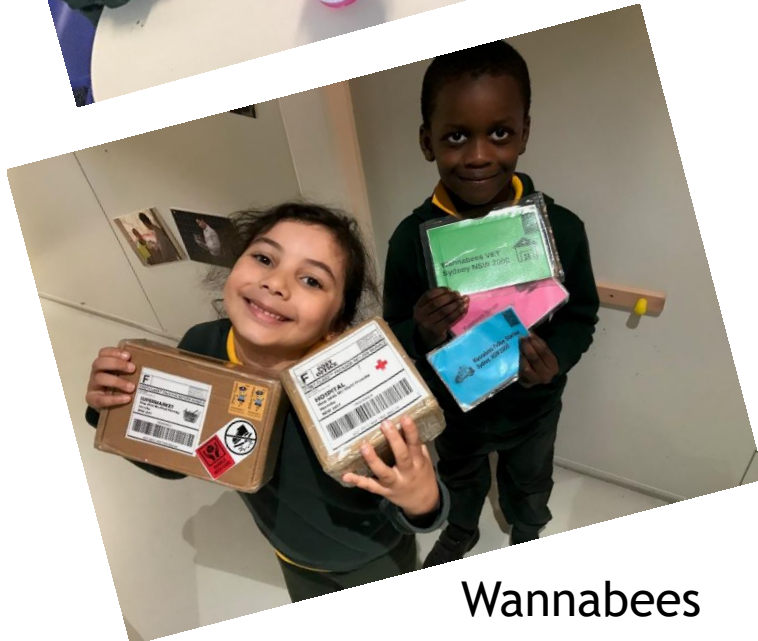

Worms

Treasures

Wannabees

Our findings...

- ▶ Student feedback was positive and they were more engaged during lessons
- ▶ When students were engaged in rich experiences they had more to contribute during discussions. This resulted in deeper field knowledge which improved their writing overall.
- ▶ When comparing student work samples there was an improvement in the quality of their writing.

Where to next:

- ▶ Working with the Sydney theatre company.
